

### Construction Excellence Awards Program Testimonials

“After many years building gardens and building a business, we found it was time to showcase our team’s efforts in the LQ awards. It is a great night with our team as well as meeting others in our industry who are just as passionate about what we all do. I would recommend it to anyone who runs a landscape business small or large – for us entering was a chance to reward our team – winning was a bonus!

Our industry has evolved immensely and is so diverse, it offers many opportunities to us all and to the next generation of landscapers who will get to experience an even greater set of skills. We have enjoyed sharing this opportunity with all our staff, giving them a sense of ownership of the projects, and working towards these high-level goals. Clients love having a team of award winning, dedicated people striving for the best outcomes. Landscape Queensland have been very supportive, and we love how they look after their members”. **Yards**

“The **Landscape Queensland Construction Excellence Awards** program has been the single most powerful positive influence over my business. Winning an Awards category, and then the overall **Residential Construction of the Year**, has provided my business with huge marketing opportunities enabling us to win more of the types of jobs we want to do.

Being a part of this Awards program has also motivated my team to lift their standards and treat every project as a potential Award-winning landscape project. The staff love attending the **Annual Gala Awards** dinner and it has now become a highlight of our working year. We all get a great sense of pride and satisfaction from being a part of the landscape industry that is showcased on the evening.

Thank you **Landscape Queensland** for running such an important and influential awards program, it’s made a real difference to my business and helps us all celebrate the work we do in our great industry”. **Living Style Landscapes**

“As proud member of Landscape Queensland for over a decade, we are grateful for the support the organisation brings to the entire landscape industry. Over the years, the **Landscape Queensland Excellence Awards** gala dinner has been a fantastic event that provided us, and our peers, with an influential platform to share our achievements and build our network. In 2019, we were selected as the winner of the highly coveted overall **Commercial Construction of the Year Award** for our West Village project.

The same year, we also won in 2 other commercial categories and clinched a Residential Design & Construct award. These awards are the culmination and ultimate testament to the hard work and dedication that our team puts in every year. The wins have solidified the sense of pride and the strong culture that exists at Penfold Projects and also have enabled us to gain more recognition in the industry. We are proud to have the Award-winning logo attached to our name and wear it like a badge of honour”. **Penfold Projects**

“The 2019 LQ awards was an opportunity for us to showcase some of our many high quality, diverse projects, to not only our peers but also to the wider landscape community. We were extremely proud to receive awards for winners in both Category 5 for Newstead Series and Landscape valued over 2.5m for our Coomera Westfield project.

The night was a great opportunity not only to let the hair down and celebrate a hectic year with the team and their partners but also to catch up with some old acquaintances and put some faces to names of the many suppliers that you generally only get to meet at events such as these.

Overall it is a great event and we look forward to the 2020 awards in whatever format they may take”!
